## /fiber

### We focus our efforts on these key areas:

**COTTON FARMING PRACTICES**

Supporting a wide range of agricultural research designed to help reduce cotton's environmental footprint and improve its profitability.

**COTTON FIBER MANAGEMENT**

Using HiFlow cottonseed and advanced software allows users to improve spinning processes and end-product quality.

**COTTON FIBER AND COTTON PRODUCT TESTING**

Providing cotton fiber yarn and product testing recognized by the AATCC and ASTM for Cotton Incorporated research and development is the role of the Product Evaluation Laboratory (PEL).

Show This:      

The screenshot displays the Cotton Cultivated website interface. At the top, a navigation bar includes links for HOME, RESEARCH & REPORTS, RESOURCES DIRECTORY, ABOUT, and SEARCH. The main header features the 'COTTON CULTIVATED' logo and the tagline 'COTTON AG DATA, RESOURCES AND TRENDS'. Below this, a welcome message states: 'Welcome to your one-stop destination for cotton resources. Here you'll find up-to-date, region-specific information from our extensive Cotton Incorporated research library, universities and other top sources.'

The content is organized into a grid of categories:

- COTTON NEWS:** Includes sub-sections for NATIONAL, GLOBAL, and REGIONAL news. A list of recent articles is shown, such as '2016 Cotton Crop Progress' and 'Red cotton leaves: causes and implications'.
- DAILY MONITORING:** Features a 'TODAY'S INFO' section for Cary, United States, displaying a weather icon, a temperature of 91°F, and a 'SEE MORE WEATHER FORECAST' link.
- STAY INFORMED:** Includes an email subscription form and a 'SUBSCRIBE' button. It also promotes the '2015 Cotton Natural Resource Survey'.
- RESEARCH & REPORTS:** Describes research reports and other materials from Cotton Incorporated's data library. It highlights a report on 'Managing Thrips in Cotton: Research in the Southeastern Region'.
- RESOURCES DIRECTORY:** Lists various resources, including 'Mix My Sprayer', a tool for calculating spray volumes.

At the bottom, there are links to 'SEE ALL NATIONAL NEWS ARTICLES', 'SEE MORE RESEARCH & REPORTS', and 'SEE ALL RESOURCES'. A footer section contains contact information and a link to the corporate site.

REGIONAL BREEDERS  
TESTING NETWORK

ABOUT TRIAL DATA FIBER SAMPLE SUBMISSION PUBLICATIONS CONTACT US

# REGIONAL BREEDERS TESTING NETWORK

The Regional Breeders Testing Network (RBTN) is a multi-environment trial (MET) conducted each year on conventional germplasm lines. Previous to initiation of this RBTN, public breeding programs limited a single-year MET due to resource limitations, but now the RBTN serves to fill the need of a MET and does so at the minimal cost of conducting a single location trial for each participating scientist. With the support of Cotton Incorporated, numerous cotton scientists routinely evaluate conventional germplasm collecting data on yield and fiber quality as well as biotic/abiotic stresses such as nematodes, tarnished plant bug, fitotomias and verticillium wilt, drought, and heat tolerance.

---

PUBLICATIONS

FIBER SAMPLE SUBMISSION

All RBTN participants must use the Fiber submission form available online from Cotton Incorporated for all RBTN fiber samples.
